## THE MAIN TOOLS

- Reach for the **best feeling** thought.

Whether you are visualising the end result of your goal or just thinking about your daily, life always remember to reach for the best feeling thought. This will help you stand still and be motivated. And this is also the answer for how specific I should be while I'm visualising. Be as specific as you can and feel good at the same time. So the key is, reaching for the best feeling thought.

- Don't be concerned on **how** am I going to make it.

I think we all agree that there is a power greater than us. You may call it God, Allah or the Universe, the key point is to know that he knows much more than we do. We should surrender to his glory and trust him. People start to doubt when they try to do it on their own. You are not alone, just do your part and let God to do His part.

- Live your **daily life**.

After asking what you want through oral prayer or by a thought and believing you already created it, let God bring you people and circumstances in order to achieve your goal. And the key is to also remember to forget about your goal for a good period of time too and live your daily life. Opportunities will show up when they are least expected.

- **Be ready** for your goal.

Do you really believe that you can do it? If you say yes sincerely then it's all good. You should ask yourself questions in order to see what's keeping you from realising your dream. It could be lack of self confidence. While we are believing in the Law of attraction, at the same time we should also believe in ourselves. So the key element here is to have believable goals. Start with something small.

- **Be social**.

The more people you know, the more people you get in touch with, then it is easier for you to believe that a door will be opened for you.

- Opportunities are **not limited**.

It doesn't matter how many times you've failed. It matters how many times you raised up better and kept going. Please bare in mind that opportunities are unlimited beyond your imagination for God is unlimited. No matter where you are and no matter what you are doing, a way will show up and you just have to walk that path with self confidence and courage.

- Learn to **listen.**

The answers you are seeking may come to you while you are listening to the other people 'cause God speaks through humans too. For this reason talk less, listen more and learn.

- Be aware of what you are **becoming.**

The most important thing in life is to be good. Don't lose the good in you while you are striving for your goal. The only thing we can bring to the other side is our **feelings.** Do good things, be a good individual.

- Let people around you **know your goal.**

If you let other people know your goal, they will help you. Always keep in mind, what we want for ourselves is in the hands of **others.**

- **Take action.**

No one has achieved success without effort. Know your talent and improve it by hard work. If you are not satisfied with the actions you take it's because you are doing something you don't like. Consciously choose a kind of job you love to do. And the hard work becomes effortless, a kind of joy.

- Start from where you are **now.**

If you are not completely satisfied with your current job or circumstances do not try to change it. Do your best in your current circumstances with the intention of a better one. Apply **all the principles** written here and at [www.actionandthelawofattraction.com](http://www.actionandthelawofattraction.com) and you will be amazed on how God will bring you the thing you wanted so bad. You may lose your current job, you may lose your current friends but all of these will lead you for the better ones because that's what you wanted. Don't be frustrated, just know in times of trouble, this will lead you to your dream. Keep yourself motivated, reach for the best feeling thought. And remember the universal law, like thoughts attract like thoughts and we become what we think about most of the time.

- We become what we think about **most of the time.**

Don't worry about every thought because only our predominant thoughts become things. Use your feelings as guidance to lead you where you want to be. Instead of monitoring your thoughts, just ask yourself this question when you are feeling bad, what am I thinking right now? And you will see that you were thinking something you don't want. The key is to realise your wrong thoughts and stop thinking them. The Best technique is to meditate to stop unwanted thoughts. 8 minutes of meditation is enough to have a restful mind.

- How to perform meditation?

You can do meditation anywhere. Just breath deeply and focus on your breath. Let the thoughts come and go. Just observe them. Soon your thoughts will leave you and you will ease your mind.

- Love your enemy.

When I say love your enemy, I really mean it. As written in the bible Matthew 5:44 *“But I tell you, love your enemies and pray for those who persecute you”* . Help your enemy, and do it sincerely. And always remember to wish all the best for everyone. At the end it is you who will benefit because what goes around comes around.

- Take command my friend, have **Gratitude.**

As written in the Holy Bible :

Matthew 13:12 *“Whoever has will be given more, and they will have an abundance. Whoever does not have, even what they have will be taken from them.”*

It is you who will benefit from attitude of gratitude for the Lord above does not need it. It is our responsibility to adjust our energy (feelings) to this Supreme Power and put the law of attraction into work. And the easiest, the shortest , the most harmonious way is to have gratitude. And as Wallace D. Wattles said in 1910, in the Science Of Getting Rich, *“The whole process of mental adjustment and atonement can be **summed up** in one word, gratitude”* .

- Most powerful **key to happiness.**

Sharing and helping to others are the keys to happiness. When you apply this teaching sincerely, your own life will be shifted to another level. You will attract new people & pleasing circumstances into your life instantly. People in your life will start to treat you better. And these improvements will be my biggest proof that what has been said here in all these pages are **Absolute Truth**, an **Exact Science**, more over an **Experienced Knowledge**.

- **Stoping Judgement**

When you decide not to judge people anymore, this doesn't mean that you need to approve everything you see around you. In the those moments where there is something happening that you don't like, simply stop your thoughts (through deep breathing) about the subject or about the person. This means you are not judging them.

- **Building Faith, in Faith.**

We all know the theory “ask, believe and then receive.” I’m pretty sure we all know that it works too. But let's make our faith stronger buy looking at “faith” in a different **realistic** perspective where we'll see that, in manifesting things *faith, itself counts!*

Q : What does a man do who believes he can do it and wants to do it?

A : He gets into **ACTION** . And this is an exact science, a psychological truth.

Whether the law of attraction works or not, ***it is our responsibility to have strong faith in our ability in doing the things we want to do or being the person we want to be.*** It is only this way we get into action, it is only this way we build a burning desire, it is only this way we can recognise **opportunities** and move forward every single day.

Yours Sincerely,
